Two-hole punching machine

Simple shape | metal material | compact size | benchmarking ruler positioning

0102

Basic product parameters

PRODUCT INFORMATION

Product name: Two-hole punching machine Product number: 0102

Product aperture: 6mm Product size: 11.5x10x20cm

Product material: metal Number of flushes: <20%

Reasonable design and deployment specifications

The design location of each part is reasonable, fully integrated with the actual life

Make it easy for you to use, efficient and convenient for work.

-Reasonable design

方便和便捷

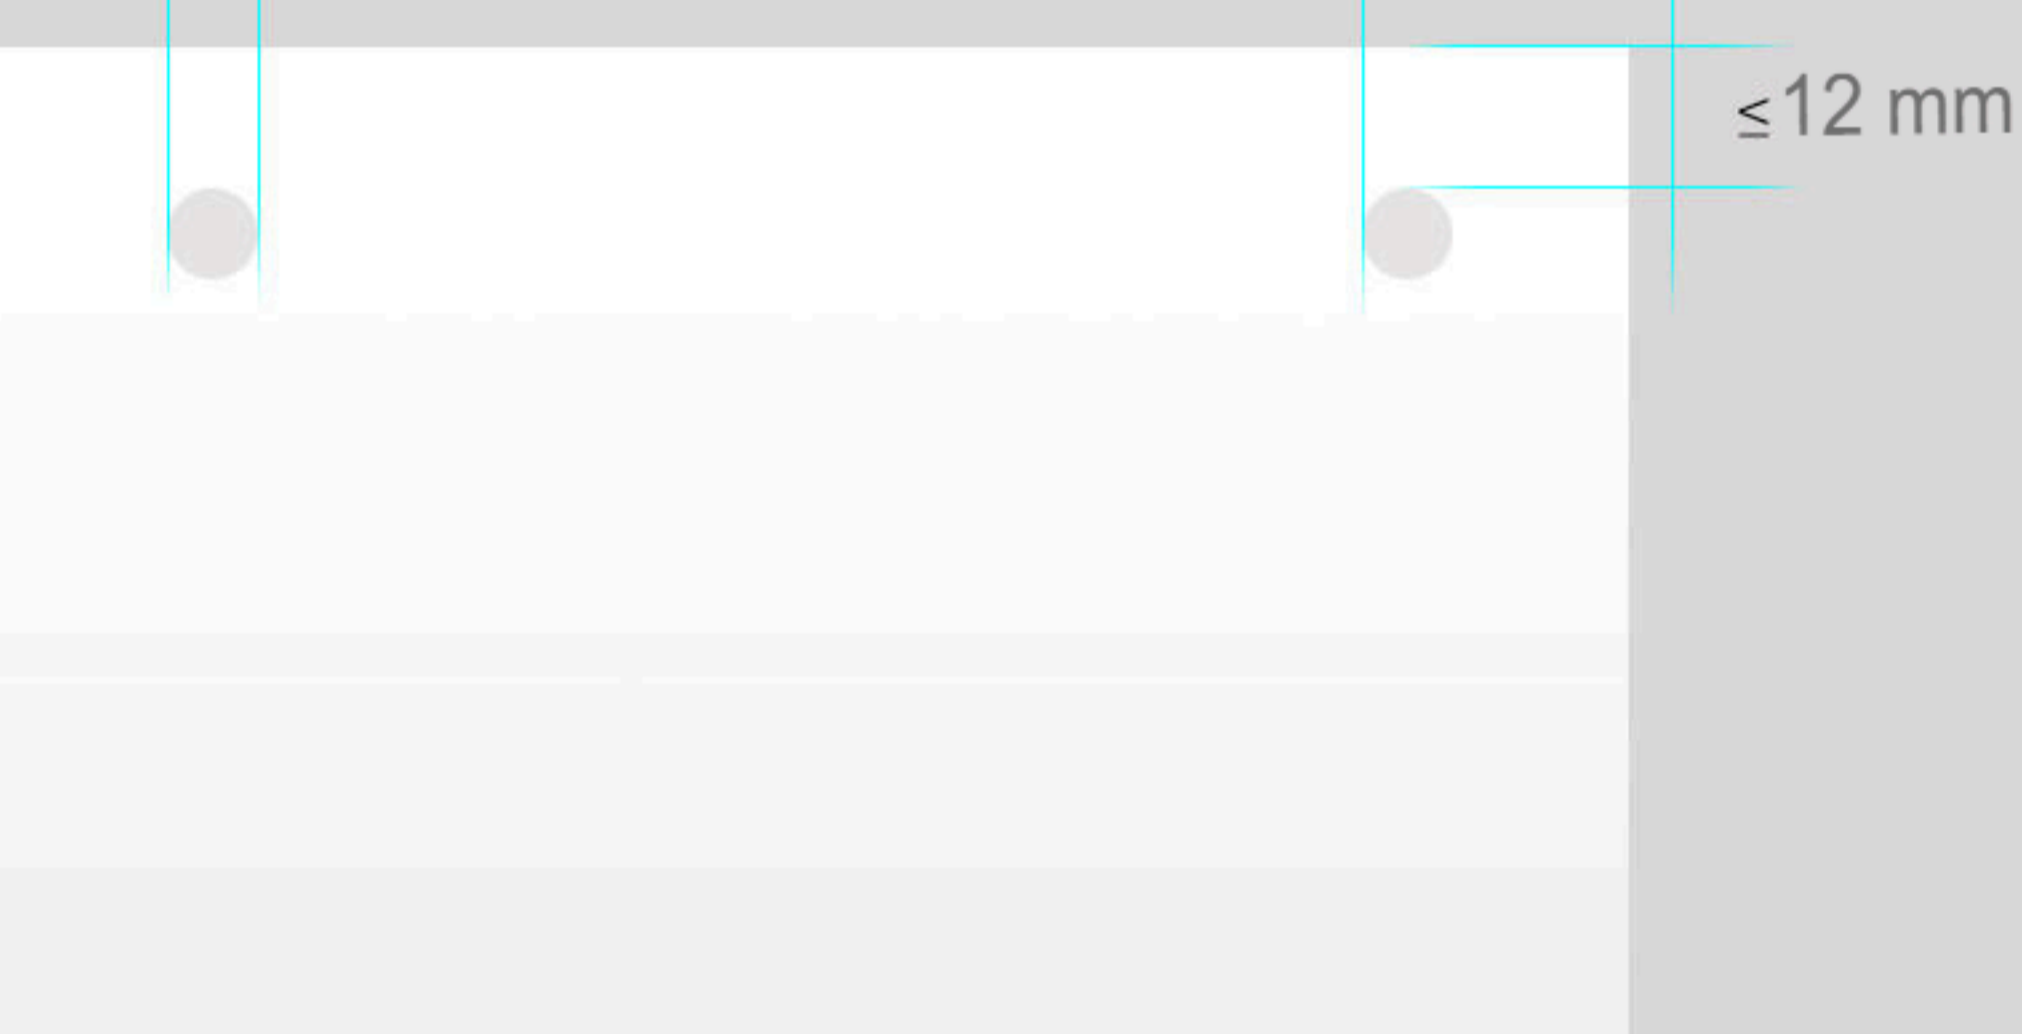

Up to 20 perforated sheets

20 sheets of maximum number of punched paper, reasonable punch size

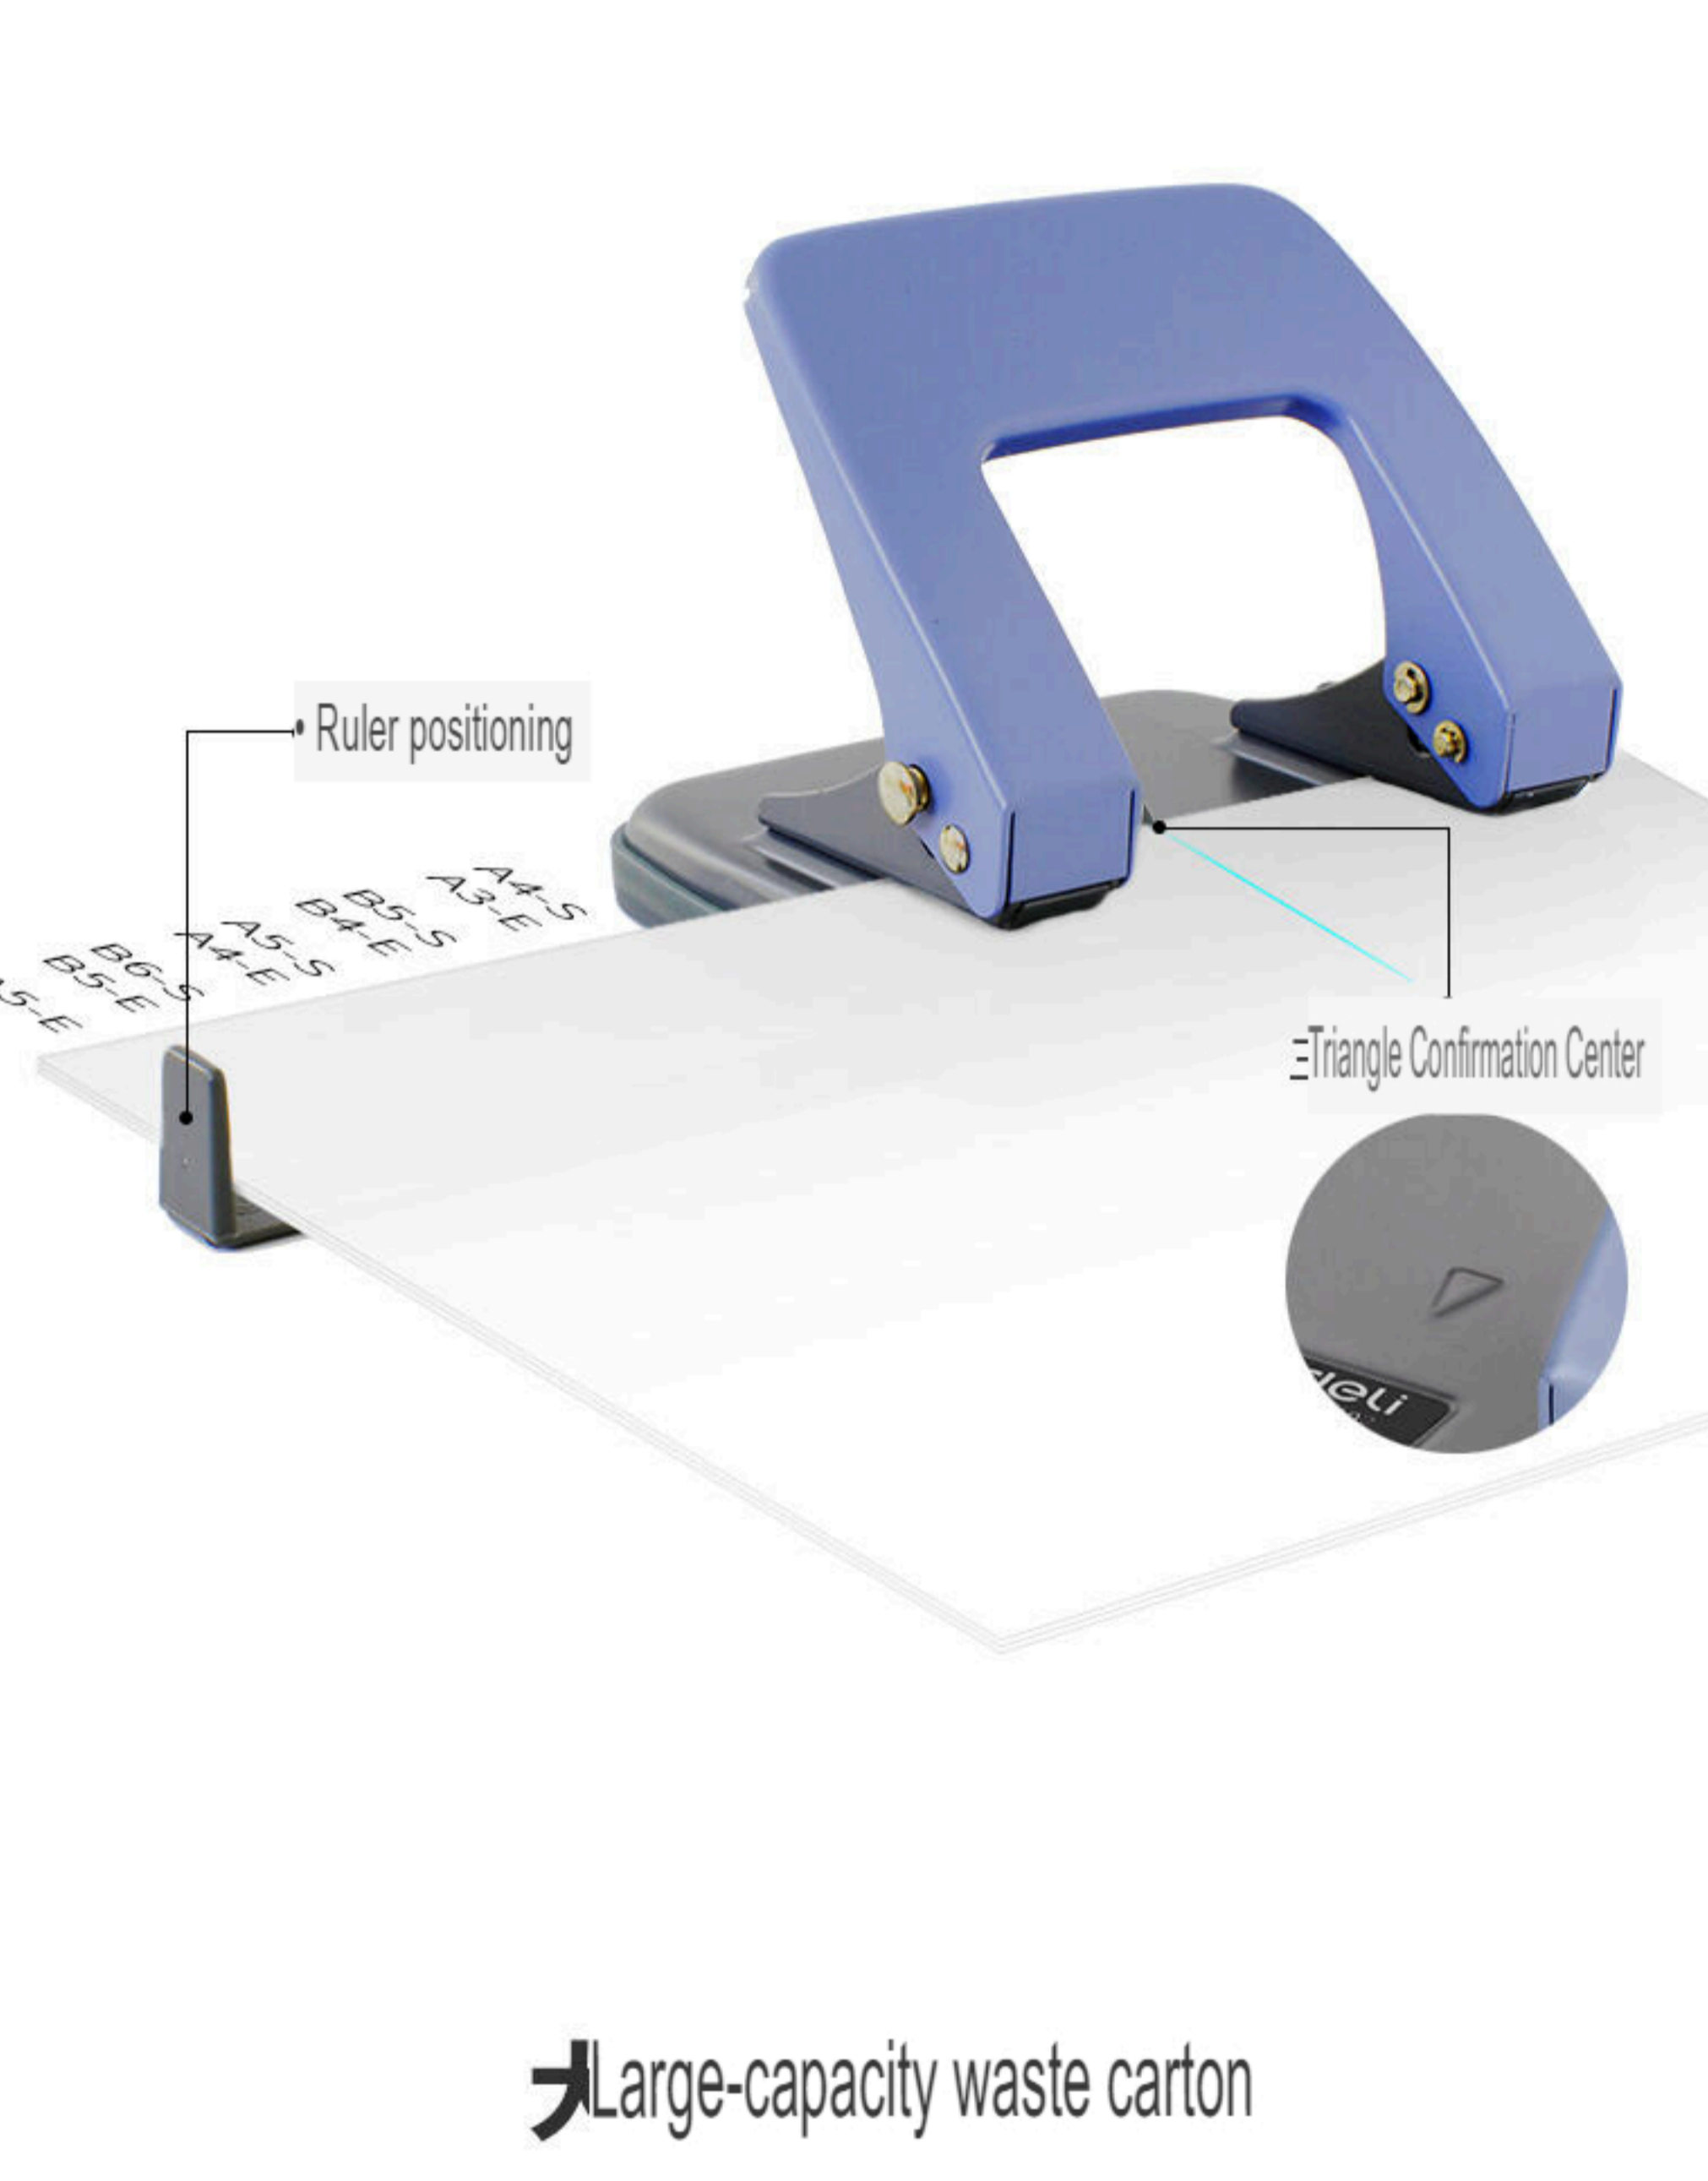

Good compatibility

20 sheets

Ruler positioning triangle centering

The ruler is triangular, the positioning is accurate, and the preparation is small.

Large-capacity waste carton

There is a waste paper box with a large capacity of ink at the bottom of the product, which is easy to clean, practical and safe

After using it, press the waste carton down and pour out the waste paper.

Quality metal, round hole edges

Made of high-quality metal material. Easy to punch, the edges of the holes are rounded and there are no serrations.

Simple and convenient operation

1. Pull out the ruler and use the ruler to adjust the scale of the required paper size.
2. Put the paper to be punched in the perforated place, combine the triangle to confirm the center, and adjust the position.
3. Press down on the punching machine.
4. After the punching is completed, take out the paper and pick it, and the hole is ready.
