Deli 0150 thick layer labor-saving heavy-duty punching machine

Deli 0150 thick layer labor-saving heavy-duty punching machine

Product performance introduction:

- 1.Punching ability: <15mm (about 150 sheets of 80 grams of copy paper).
- 2.Aperture: 6mm, hole distance: 80mm, the distance from the edge of the paper to the center of the hole is 12mm.
- 3.The punch structure (hollow knife) is adopted to achieve labor-saving effect.
- 4.The change-to-structure is adopted, which makes it easy to change the tool.
- 5.The symmetrical ruler design makes the paper the most convenient to locate. The ruler adopts a compression design, which can increase the placement surface when pressed down.
- 6.With storage box design, it saves space for items to be placed.
