

FriXion erasable pens

Pilot FriXion pens are truly unique. FriXion ink “erases” due to Pilot’s exclusive thermo-sensitive ink technology.

If you need to make corrections on the page, simply erase with the FriXion eraser tip as if using a regular pencil eraser.

When rubbing, the ink heats up to over 65°C and becomes invisible. No mess, no dust, no paper damage and completely ‘erased’ lines. You can then re-write using the same pen.

Write, Erase, Re-write as many times as you like...

FriXion

Pilot FriXion pens are truly unique. FriXion ink "erases" due to Pilot's exclusive thermo-sensitive ink technology.

If you need to make corrections on the page, simply "FriXion IT" by rubbing with the FriXion eraser tip as if using a regular pencil eraser.

When rubbing, the ink heats up to over 65°C and becomes invisible. No mess, no dust, no paper damage and completely 'erased' lines. You can then re-write using the same pen.

Write, FriXion IT, Re-write as many times as you like.

Mistake-free writing
with FriXion

*Note: Erasable pens are not recommended for use on legal or official documents. Do not expose to extreme temperatures (<14°F; >140°F). If pen is exposed to temperature that reaches 140°F, the ink will be colorless when writing. To restore color, cool to at least 14°F in freezer and the ink will again write in color.

FRIXION CLICKER Ø7 ERASABLE ROLLERBALL
